

Seed Trust Initiative is a nonprofit organization founded to help people nurture and find their God-given potential in a world full of so much noise and confusion. It's vision is to provide programmes that help nurture women, girls and boys to live out the essence and purpose for which they were created.

Paruto Solutions
...think possibilities!

Made with 

CASE STUDY

Portfolio Category: **Nonprofit Organizations**

Project Code: **PS120488**

Goal

Seed Trust initiative asked for a website that would not just showcase its programmes but also go to provide a viable information portal where all its beneficiaries can have the information they needed per time. For Seed Trust Initiative, the website was to serve as a testament to where the organization was headed to in the coming years. And they found a partner in Paruto Solutions Ltd to make their dreams and vision a reality. In addition, it was important that the website to be built looks simple but elegant and engaging. This was communicated clearly during the planning stages of the project.

Solution

Paruto Solutions Ltd swung into action and quickly brought up a plan and design for the proposed Seed Trust Initiative website. For us, it was important that we captured the desires and aspirations of the team from Seed Trust initiative in our proposal. Thus, we proposed a simple and functional design that is responsive across various media devices - phones, tablets, laptops, desktops and others. We also did put forward a simple but secured solution for the donations functionality. This integrated well with the design and worked seamlessly as expected. Our solution did also take into consideration the need for building a secured website that provided the necessary assurances to visitors who may want to make a donation via the platform. Our implementation of a secured SSL - Secured Sockets Layer - did provide the needed cover for this.

Outcome

We are glad to say, the project was a success. We delivered as planned and met all the expectations of the Seed Trust Initiative team. Therefore, we can boldly say, Paruto Solutions Ltd did it again!
